

**WET  
OUTSIDE,  
DESERT-DRY  
INSIDE**

**Bring Your  
Office Outside  
with the Cedar Tree  
CT4 Handheld**

### **GET A FULL-FEATURED FIELD-READY ANDROID PLATFORM**

The CT4's lightweight and reliable computing platform makes no compromises on ruggedness and reliability. Outstanding applications from our partners, plus hundreds of business-ready and field-ready applications in the Google ecosystem will provide exactly the tools you need to bring your office outside.

### **DEPLOY THE CT4 INSTEAD OF A SMARTPHONE FOR YOUR FIELD SOLUTION**

Why deploy expensive and breakable smart phones for field data collection when our CT4 goes wherever you do? And our vehicle and pole mounts put the CT4's power exactly where you need it. With 802.11g, Bluetooth and 3G cellular radios, you'll get reliable networking, data transfer and instrumentation interfacing.

### **CONTROL YOUR TOTAL COST OF OWNERSHIP**

Deploy the CT4 at a fraction of the cost of a smartphone! Then, increase its long service life even further with our extended warranties. Finally, continue your cost savings year over year by using our software development partners to deploy solutions at a fraction of the cost of other professional mobile solutions.

**Field Services • Mapping and GIS • Asset Management  
Natural Resources • Energy and Utilities**
